

About GREENIES® dental products

- GREENIES® Canine Dental Chews and FELINE GREENIES® Dental Treats are more than just a tasty snack. They help promote oral health.
- If your dog is unwilling to let you brush their teeth, try GREENIES® Canine Dental Chews. They've earned the Veterinary Oral Health Council Seal of Acceptance for control of plaque and tartar and are great for freshening breath.
- GREENIES® Canine Dental Chews and FELINE GREENIES® Dental Treats are the #1 veterinarian-recommended pet specialty dental treats.
- GREENIES® Canine Dental Chews contain added natural antioxidants as well as natural sources of dietary fiber. Both are great for promoting a healthy immune and digestive system.
- The contoured shape, rounded bristles and ridges of GREENIES® Canine Dental Chews are biometrically designed for maximum chewing and cleaning action.
- GREENIES® Canine Dental Chews allow teeth to sink in for maximum tooth contact. The cleaning action disrupts plaque and tartar buildup that can lead to periodontal disease.
- GREENIES® Canine Dental Chews are 100% edible with a chewy, flexible texture and are highly soluble for safe digestion.
- FELINE GREENIES® Dental Treats have a unique shape designed to decrease gulping and increase chewing action, leading to better feline oral health.
- FELINE GREENIES® Dental Treats are 100% nutritionally complete for adult cats and have less than two calories per piece.
- FELINE GREENIES® Dental Treats are the #1 veterinary-recommended dental treats for cats.
- FELINE GREENIES® Dental Treats come in five tasty flavors to help even the most finicky cats practice good oral care.
- Always look for treats that carry the Veterinary Oral Health Council (VOHC) Seal of Approval for the most effective preventive oral care.
